*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

241-247 Page Street is one of two buildings located on a 30' x 120' lot on the south side of Page Street between Octavia and Laguna Streets. The other building on the parcel is addressed as 220-226 Rose Street. Built circa 1895, 241-247 Page Street is a three-story, wood frame, multiple-family residential building with basement designed in the Italianate style. The rectangular-plan building, clad in horizontal drop wood siding, sits on a brick perimeter foundation and is capped by a flat roof. The primary façade faces north and is two bays wide. The typical fenestration consists of one-over-one, double-hung, wood-sash windows. The ground floor features a wood-panel door and a small basement window in the left bay; a granite staircase in the center bay; and a small basement window in the right bay. The terrazzo staircase leads up to the recessed entryway, which contains a flat-panel surround, enlarged wood brackets, and a contemporary single-light glazed wood door and transom. On either side of this entryway is a three-story semi-hexagonal bay window with paneled sills, sculpted friezes, belt course, and beaded molding. On the second floor, a wood balustrade and metal fire escape appear between the two bay windows The primary facade terminates in a wide entablature with panel molding, brackets, and a shallow cornice. The building appears to be in good condition.
