*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

185 Haight Street is located on a 30' x 76.6' lot on the south side of Haight Street, between Octavia and Laguna Streets. Built ca. 1885, 185 Haight Street is a two-story, wood frame, single-family residence designed in the Italianate style. The rectangular-plan building, clad in horizontal wood shiplap siding, sits on a reinforced concrete perimeter wall foundation and is capped by a hip roof. The primary façade faces north; is three bays wide; and features fenestration composed of arched, double-hung, wood sash windows with ornamental surrounds, bracketed sills, and centralized cartouche motifs. The left and center bays of the first floor contain single windows with security grilles over the lower sash. The right bay of the first floor features a recessed entryway and projecting entry porch. The entry porch is approached by a short flight of brick steps and is adorned with free-standing Composite columns, pilasters, a sculpted entablature with panel molding and bracket extensions, and a heavy deep-projecting cornice. The entry porch provides access to the recessed entryway, which contains a decorative metal security grille and a glazed wood-panel door with molded surrounds and sidelights. The second floor features a single window in each bay. The primary facade terminates in an entablature with sculpted frieze panels, ornamental brackets, and a strong, projecting cornice. The building appears to be in good condition.
