*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

149-151 Gough Street is located on a 28' x 87' lot on the west side of Gough Street, between Lily and Oak Streets. Built in 1920, 149-151 Gough Street is a 2-story, wood frame, multiple family building with a commercial use on the first floor. The rectangular-plan building, clad in shiplap wood siding on the first story and stucco on the second story, is capped by a flat roof. The foundation is not visible from the street. The primary façade faces east and is 2 bays wide. The first floor features an entrance at the left end of the elevation with a paneled wood door and tall transom. The center of the elevation contains a storefront with double-leaf, metal, glazed doors, a wood-frame, plate glass window , and divided transom. A recessed entry porch with an arched door hood on brackets is set at the right end of the elevation. The porch shelters a single wood door accessing the upper story. The upper story is characterized by two chamfered bay windows with double-hung, wood sash, flat roofs, and sculpted cornices. The primary facade terminates in a parapet with squared lobes over each bay. The building appears to be in good condition.
