*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

571 Fell St. is located on a 28' x 70' lot on the south side of Fell Street, between Laguna and Buchanan Streets. Built ca. 1885, 571 Fell St is a 3-story, wood frame, multiple family dwelling originally designed in the Italianate style. The rectangular-plan building, clad in stucco and drop wood siding, is capped by a parapeted gable roof. The primary façade, clad in stucco, faces north and is 2 bays wide. The ground floor features a garage in the left bay, and the right bay contains a dogleg set of terrazzo steps with concrete parapet walls leading to the main entrance on the first story. The main entrance is sheltered inside a recessed, arched entry porch with a cartouche above the entrance. The building has two entrances fitted with flush wood doors. The left bay of the first story contains a semi-hexagonal bay window with double-hung, wood sash. The second story has an bay window in the left bay and a single flush window in the right bay with double-hung, wood sash. The primary facade terminates in a paneled frieze and bracketed cornice. Side elevations are clad in drop wood siding. A single bay of an offset rear block is exposed on the east elevation of the building and features another entrance to the building. The building appears to be in good condition.
