*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

511 Linden St. is one of two buildings located on a 28' x 120' through-block lot on the south side of Fell Street, between Laguna and Buchanan Streets. The property shares the lot with a second residential building numbered 506 Fell Street. Built ca. 1910, 511 Linden St. is a 4-story, wood frame, multiple family dwelling designed in the Classical Revival style. The rectangular-plan building, clad in flush and drop wood siding, is capped by a flat roof. The foundation is not visible. The primary façade faces north toward Linden Street and is 2 bays wide. The first floor features a recessed entry porch in the left bay, framed by columns in antis. The porch shelters a single modern metal door. The right bay contains a recessed garage. The upper three stories are characterized by semi-hexagonal bay windows clad in flush wood siding in both bays. The windows have three-part, metal-frame picture windows with side casement sash and divided transoms on the front face. The side faces have single metal casement sash with divided transoms. The façade terminates in a modillion cornice.

The building appears to be in good condition, though there is some paint failure on the west elevation.
