*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

130-152 Gough Street is located on a 60' x 55' lot on the northeast side of Gough and Lily Streets. Built ca.1915, 130-152 Gough Street is a 4-story, wood frame set of 12 enclosed Romeo flats. The rectangular-plan building, clad in stucco, is capped by a flat roof. The primary façade faces west and is 6 bays wide. A secondary elevation measuring 4 bays wide faces Lily Street. The first story of the façade has gated entrances to enclosed, interior staircases in the second and fourth bays. The interior wood staircase accesses the units, which have wood, paneled doors with transoms. The remaining bays of the first story have divided wood awning sash. The second story has paired, double-hung, wood windows in the first, third, fourth, and sixth bays. The third and fourth stories have chamfered bay windows with double-hung wood sash in the first, third, and fourth bays and a 5-sided, corner bay window in the sixth bay. The second and fifth bays have rectilinear bay windows with paired openings on the front face fitted with jalousie vents. The secondary elevation along Lily Street has divided wood awning windows on the first story and paired double-hung wood windows on the second story. The third and fourth stories have semi-hexagonal bay windows identical to those on the façade and paired double-hung wood windows in the fourth bay. Both elevations terminate in a projecting cornice. The building appears to be in good condition.
