*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

361 Grove Street is one of two buildings located on a 28' x 120' through-block lot on the south side of Fell Street between Franklin and Gough Streets. The second building is addressed as 266-270 Ivy St and both buildings appear to be connected by rear stairs or porch. Built in 1908, 361 Grove Street is a 4-story, wood frame, multiple family building designed in the Mediterranean Revival style. The rectangular-plan building, clad in stucco, sits on a concrete, slab foundation and is capped by a flat roof. The primary façade faces north and is 2 bays wide. The left bay of the ground and first stories contains a recessed entry porch with wood steps and solid balustrade. The porch shelters a basement entry on the left side of the enclosure and two deeply recessed wood entry doors. The right bay features a garage on the ground story and an arched, three-part wood window with double-hung sash set in an arched recess. The upper two stories have round bay windows with double-hung wood sash in each bay. The windows terminate in hipped roofs clad in red clay tile roofing. The façade terminates in a stepped parapet wall. The building appears to be in good condition.
