

## 2. Active Storefronts

### *Espacios Comerciales en el Primer Piso*

One of the first images of Mission street that come to mind are the colorful displays of goods that punctuate the corridor. Storefronts displaying goods attract people who in turn make the sidewalks safer and more pleasant places to be. This map looks at where these points of activity are currently located.

*La imagen clásica de la Calle Mission es de las tiendas y sus escaparates adornados y llenos de bienes. Esto atrae a la gente, y crea un ambiente alegre y de seguridad. Este mapa ubica estos lugares alegres y seguros.*
