**ADOPTING FINDINGS FOR A CERTIFICATE OF APPROPRIATENESS FOR PROPOSED WORK DETERMINED TO BE APPROPRIATE FOR AND CONSISTENT WITH THE PURPOSES OF ARTICLE 10, TO MEET THE STANDARDS OF ARTICLE 10 AND TO MEET THE SECRETARY OF INTERIOR'S STANDARDS FOR REHABILITATION, FOR THE PROPERTY LOCATED ON LOT 001 IN ASSESSOR'S BLOCK 0799, WITHIN THE P (PUBLIC) ZONING DISTRICT AND OPEN SPACE HEIGHT AND BULK DISTRICT.**

### PREAMBLE

WHEREAS, on March 4, 2014, the Recreation and Parks Department, (Project Sponsor) filed an application with the San Francisco Planning Department (hereinafter "Department") for a Certificate of Appropriateness to construct a single stall ADA-accessible restroom to the north of existing playground; replace the irrigation system with a new water efficient irrigation system; and renovate the landscaping, including the incorporation of water conserving lawn alternatives where appropriate.

WHEREAS, the Project was determined by the Department to be categorically exempt from environmental review. The Historic Preservation Commission (hereinafter "Commission") has reviewed and concurs with said determination.

WHEREAS, on June 4, 2014, the Commission conducted a duly noticed public hearing on the current project, Case No. 2013.1334AE ("Project") for its appropriateness.

WHEREAS, in reviewing the Application, the Commission has had available for its review and consideration case reports, plans, and other materials pertaining to the Project contained in the Department's case files, has reviewed and heard testimony and received materials from interested parties during the public hearing on the Project.

**MOVED**, that the Commission hereby grants the Certificate of Appropriateness, in conformance with the architectural plans and specifications labeled Exhibit A on file in the docket for Case No. 2013.1334AE based on the following conditions and findings:

### **CONDITIONS OF APPROVAL**

- The project sponsor shall document the locations of the cobble-lined swales that border the historic paths prior to any excavation, and will require that the swales are reconstructed in any locations where they must be temporarily removed for the irrigation system installation.

### **FINDINGS**

Having reviewed all the materials identified in the recitals above and having heard oral testimony and arguments, this Commission finds, concludes, and determines as follows:

1. The above recitals are accurate and also constitute findings of the Commission.
2. Findings pursuant to Article 10:

The Historical Preservation Commission has determined that the proposed work is compatible with the character of the landmark district as described in the designation report.

- The new restroom will not cause the removal of any important features of the park. It will be located in an area that does not contain historic features since it was previously altered by the expansion of the playground.
- The location next to the playground will not disturb the overall spatial organization of the park.
- The scale of the building appears to be proportionate relative to the historic features of the park.
- The cylindrical form of the building relates well to the adjacent playground's circular plan and curving retaining walls while differentiating the building as a modern feature in the landscape.
- The proposed textured and tinted concrete material appears to relate well to the existing stucco-clad restroom and the historic concrete retaining walls found throughout the district. The concrete texture will vary at the base and top of the building to reflect the vertical

hierarchy commonly found in the surrounding historic buildings and in the existing restroom.

- The proposed metalwork will relate well to the cast iron and wrought iron fencing materials typically found in the district.
- The new paving treatment for the plaza between the playground and new restroom will blend well with the existing asphalt paving system and will not interrupt or detract from the historic circulation pattern in the park.
- The overall landscaping program will be maintained as the proposed plantings would not detract from the open lawns in the more gently sloped portions of the park or the mature tree plantings.
- The work will support the future maintenance of the landscape by reducing its reliance on irrigation.
- That the proposed project meets the requirements of Article 10, Appendix E of the Planning Code.
- That the proposed project meets the following *Secretary of the Interior's Standards for Rehabilitation*:

***Standard 1.*** A property shall be used for its historic purpose or be placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment.

***Standard 2.*** The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

***Standard 3.*** Each property will be recognized as a physical record of its time, place and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

***Standard 5.*** Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a property shall be preserved.

***Standard 9.*** New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work will be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.

***Standard 10.*** New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.

3. **General Plan Compliance.** The proposed Certificate of Appropriateness is, on balance, consistent with the following Objectives and Policies of the General Plan:

I. URBAN DESIGN ELEMENT

THE URBAN DESIGN ELEMENT CONCERNS THE PHYSICAL CHARACTER AND ORDER OF THE CITY, AND THE RELATIONSHIP BETWEEN PEOPLE AND THEIR ENVIRONMENT.

**GOALS**

*The Urban Design Element is concerned both with development and with preservation. It is a concerted effort to recognize the positive attributes of the city, to enhance and conserve those attributes, and to improve the living environment where it is less than satisfactory. The Plan is a definition of quality, a definition based upon human needs.*

**OBJECTIVE 1**

EMPHASIS OF THE CHARACTERISTIC PATTERN WHICH GIVES TO THE CITY AND ITS NEIGHBORHOODS AN IMAGE, A SENSE OF PURPOSE, AND A MEANS OF ORIENTATION.

*POLICY 1.3*

*Recognize that buildings, when seen together, produce a total effect that characterizes the city and its districts.*

**OBJECTIVE 2**

CONSERVATION OF RESOURCES WHICH PROVIDE A SENSE OF NATURE, CONTINUITY WITH THE PAST, AND FREEDOM FROM OVERCROWDING.

*POLICY 2.4*

*Preserve notable landmarks and areas of historic, architectural or aesthetic value, and promote the preservation of other buildings and features that provide continuity with past development.*

*POLICY 2.5*

*Use care in remodeling of older buildings, in order to enhance rather than weaken the original character of such buildings.*

*POLICY 2.7*

*Recognize and protect outstanding and unique areas that contribute in an extraordinary degree to San Francisco's visual form and character.*

*The goal of a Certificate of Appropriateness is to provide additional oversight for buildings and districts that are architecturally or culturally significant to the City in order to protect the qualities that are associated with that significance.*

*The proposed project qualifies for a Certificate of Appropriateness and therefore furthers these policies and objectives by maintaining and preserving the character-defining features of the landmark for the future enjoyment and education of San Francisco residents and visitors.*

4. The proposed project is generally consistent with the eight General Plan priority policies set forth in Section 101.1 in that:

- A) The existing neighborhood-serving retail uses will be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses will be enhanced:

*The proposed project is for the rehabilitation of a park property and will not have any impact on neighborhood serving retail uses.*

- B) The existing housing and neighborhood character will be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods:

*The proposed project will strengthen neighborhood character by respecting the character-defining features of the building in conformance with the Secretary of the Interior's Standards.*

- C) The City's supply of affordable housing will be preserved and enhanced:

*The project will not reduce the affordable housing supply as the existing unit will be retained.*

- D) The commuter traffic will not impede MUNI transit service or overburden our streets or neighborhood parking:

*The proposed project will not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking as it will provide new off-street parking.*

- E) A diverse economic base will be maintained by protecting our industrial and service sectors from displacement due to commercial office development. And future opportunities for resident employment and ownership in these sectors will be enhanced:

*The proposed will not have any impact on industrial and service sector jobs.*

- F) The City will achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

*Preparedness against injury and loss of life in an earthquake is improved by the proposed work. The work will be executed in compliance with all applicable construction and safety measures.*

- G) That landmark and historic buildings will be preserved:

*The proposed project is in conformance with Article 10 of the Planning Code and the Secretary of the Interior's Standards.*

H) Parks and open space and their access to sunlight and vistas will be protected from development:

*The proposed project will not impact the access to sunlight or vistas for the parks and open space.*

5. For these reasons, the proposal overall, is appropriate for and consistent with the purposes of Article 10, meets the standards of Article 10, and the Secretary of Interior's Standards for Rehabilitation, General Plan and Prop M findings of the Planning Code.

**DECISION**

That based upon the Record, the submissions by the Applicant, the staff of the Department and other interested parties, the oral testimony presented to this Commission at the public hearings, and all other written materials submitted by all parties, the Commission hereby **GRANTS a Certificate of Appropriateness** for the property located at Lot 010 in Assessor's Block 0798 for proposed work in conformance with the renderings and architectural plans labeled Exhibit A on file in the docket for Case No. 2013.1334AE.

**APPEAL AND EFFECTIVE DATE OF MOTION:** The Commission's decision on a Certificate of Appropriateness shall be final unless appealed within thirty (30) days. Any appeal shall be made to the Board of Appeals, unless the proposed project requires Board of Supervisors approval or is appealed to the Board of Supervisors as a conditional use, in which case any appeal shall be made to the Board of Supervisors (see Charter Section 4.135).

**Duration of this Certificate of Appropriateness:** This Certificate of Appropriateness is issued pursuant to Article 10 of the Planning Code and is valid for a period of three (3) years from the effective date of approval by the Historic Preservation Commission. The authorization and right vested by virtue of this action shall be deemed void and canceled if, within 3 years of the date of this Motion, a site permit or building permit for the Project has not been secured by Project Sponsor.

**THIS IS NOT A PERMIT TO COMMENCE ANY WORK OR CHANGE OF OCCUPANCY UNLESS NO BUILDING PERMIT IS REQUIRED. PERMITS FROM THE DEPARTMENT OF BUILDING INSPECTION (and any other appropriate agencies) MUST BE SECURED BEFORE WORK IS STARTED OR OCCUPANCY IS CHANGED.**

I hereby certify that the Historical Preservation Commission ADOPTED the foregoing Motion on June 4, 2014.
