DESCRIPTION

The Large Tourist Hotel Conversion Ordinance, Section 41F.3(g) of the Administration Code, requires the Planning Commission to adopt a "Baseline Inventory" and subsequent "Annual Inventories" of the number of rooms commercially available for rent as of March 1 each year in Large Tourist Hotels (hotels with over 99 rooms). Capitalized words in this Executive Summary are further defined in the attached Large Tourist Hotel Conversion Ordinance.

REQUIRED COMMISSION ACTION

The draft 2010 Annual Inventory of Large Tourist Hotel Rooms is before the Commission so that it may take action to adopt, reject, or adopt with modifications the proposed inventory.

RECOMMENDATION

The Department recommends that the Commission *adopt the proposed 2010 Annual Inventory* and adopt the attached Draft Resolution to that effect.

BACKGROUND

Regulation of Large Tourist Hotel Rooms

In March 2008 the Board of Supervisors adopted the Large Tourist Hotel Conversion Ordinance (Administrative Code Chapter 41F- aka LTHC Ordinance). As amended in January 2009, the LTHC Ordinance regulates the conversion of Large Tourist Hotel rooms into condominiums or other ownership structures that reduce the City's inventory of large tourist hotel rooms. The Ordinance provides for conversion of up to 550 Large Tourist Hotel Rooms prior to November 1, 2010. Beginning in 2010, the Planning Department will hold a Lottery for additional Conversions, but only if statutory preconditions are met. Regulation of the ownership structure of Large Tourist Hotel Rooms requires monitoring of the City's stock of Large Tourist Hotel Rooms. To accomplish this monitoring of the City's Large Tourist Hotel Room stock, the

Administrative Code requires that the Planning Commission adopt an initial “Baseline Inventory” for March 2009 and “Annual Inventories” every March thereafter. The Commission adopted a Baseline Inventory in Resolution No. 17822 on February 5, 2009. On March 6, 2009, the Planning Department sent a memorandum to the Planning Commission confirming that the adopted Baseline Inventory remained accurate on March 1, 2009.

Use of the Large Tourist Hotel Room Inventories

The Administrative Code provides for conversion of up to 550 Large Tourist Hotel Rooms into Condominium Projects prior to November 1, 2010. The Baseline Inventory and subsequent Annual Inventories will be used to regulate the future conversion of Large Tourist Hotel Rooms into Condominium Projects above and beyond the initial 550 rooms. The Planning Department will hold future lotteries if the following criteria are met: 1) the Annual update to the Baseline Inventory shows a net increase of at least 100 Large Tourist Hotel Rooms over the prior year's inventory; and 2) conducting a lottery would not result in a reduction in the number of Large Tourist Hotel Rooms below the Baseline Inventory. (Note: this means that new Large Tourist Hotel Rooms will need to be created to replace the up-to-550 pre-lottery Conversions and an additional 100 rooms before the first lottery is held.)

BASIS FOR RECOMMENDATION

On May 23, 2008, the Department published a draft list of Large Tourist Hotel rooms. The initial list was derived from data gathered by the San Francisco Chamber of Commerce. This list has been discussed at Planning Commission hearings, hearings at the Board of Appeals, and the Board of Supervisor's Land Use Committee. In January 2009 the draft inventory was mailed to all declared interested parties as well as property owners and general managers for hotels with 75 or more rooms. As of the writing of this report, the Department has been notified of four potential errors. Each request was investigated during the week of January 26 –January 30, 2009. At the adoption hearing for the Baseline Inventory, the Planning Commission considered three requests for amendments to the draft Baseline Inventory. The Commission considered those requests and adopted a final Baseline Inventory that was confirmed to be accurate on March 1, 2009. **Since that time, the Department has received no further requests for adjustment to the Inventory due to either new reports of errors or reports of rooms that are no longer commercially available. As of the writing of this report, the Department has conducted a review of building applications and determined that there have been no additions to the Inventory of large Tourist Hotel rooms since the adoption of the Baseline Inventory in 2009. Therefore, the Department recommends adopting the 2009 Baseline Inventory as the 2010 Annual Inventory.**

General Plan Support

The San Francisco General Plan's Commerce and Industry Element states:

“Visitor trade constitutes an important economic base for San Francisco and is responsible for employing, directly and indirectly, more residents than any other economic sector. It generates substantial revenues in many related economic areas including transportation, general merchandising, eating and drinking places, food stores, other retail trade, motor vehicles and service stations, personal

services, and entertainment and recreation. By far the largest expense for visitors is hotels or motels, followed by restaurants and retail sales.

Such spending is important, for it stems from sources outside the Bay Area, and thus provides a substantial input of new dollars to the local economy. The expenditure of these new dollars in the local economy has a powerful effect in generating additional spending by local merchants and, in turn, generates higher personal incomes for resident owners and employees of visitor trade facilities. Tourist demand also has the effect of expanding the availability and selection of local goods and services."

ISSUES FOR CONSIDERATION

The Large Tourist Hotel Conversion Ordinance does not prevent hotels from consolidating rooms or reducing room numbers in Large Tourist Hotels. The number Large Tourist Hotel rooms can be modified as long as a room reduction is not paired with a change in ownership structure that would, for example, create condominiums. It should be noted that any hotel that qualified as a Large Tourist Hotel within the last 5 years is subject to the Ordinance (Section 41F.2 (g)). Further any hotel that qualified as a Large Tourist Hotel at the time the LTHC Ordinance was adopted on March 24, 2008 and subsequently reduced their rooms below 100 by March 1, 2009 would qualify the hotel to be REMOVED from the Baseline Inventory, however, such hotel would be still subject to the Ordinance and restricted from converting rooms to condominiums for five years thereafter.

Related Issues: Hotel Conversion Queue

In fall of 2008, the queue was established as follows:

Queue Order	Hotel Name, Address	Conversion Credits Requested/Lost Tourist Hotel Rooms
1.	The Palace Hotel, 2 New Montgomery.	69
2.	The St. Francis Hotel, 455 Post/335 Powell.	12
3.	The Grand Hyatt Hotel, 345 Stockton.	184
4.	The Fairmount Hotel, 950 Mason Street.	286

In January 2009, the Section 41F.2 definition of "Convert" was amended and, as a consequence, the Ordinance no longer applies to the St. Francis Hotel's 12-room conversion (No. 2 in the queue). Under the amended Ordinance, the Mark Hopkins Hotel is eligible to use the remaining 11 Conversion credits.

Current Hotel Conversion queue:

Queue Order	Hotel Name, Address	Conversion Credits Requested/Lost Tourist Hotel Rooms
1.	The Palace Hotel, 2 New Montgomery.	69 credits requested 69 credits available
2.	The Grand Hyatt Hotel, 345 Stockton.	184 credits requested 184 credits available
3.	The Fairmount Hotel, 950 Mason Street.	286 credits requested 286 credits available
4.	The Mark Hopkins Hotel, 850 Mason Street	179 credits requested 11 credits available

Related Issues: Upcoming Actions

As amended in 2009, the Administrative Code Section 41F.3 (b) establishes a hotel's place in the queue based upon the date by which the hotel completed its environmental (E) application or their subdivision (Q) application. Queue members had until August 12th, 2009 (nine months), to make diligent and good faith efforts to convert their hotel rooms. For purposes of satisfying the diligent and good faith effort requirement during the initial nine months after issuance, applicants must, at a minimum, submit to the Planning Department a Section 41F.3 (f) application and be proceeding or completed with environmental review. **To date, all queue members have made diligent and good faith efforts by submitting a 41.3(f) application and by proceeding with or completing environmental review.**

Each queue member must obtain Planning Commission approval of its Conversion application prior to November 1, 2010, as required by Section 41F.3 (b). Pursuant to Section 41F.3 (e) (2), unused pre-lottery Conversion credits will not be reallocated because more than nine months has passed since issuance. Conversion credits will expire if an applicant fails to diligently and in good faith pursue Conversion for any 18 consecutive months.

ENVIRONMENTAL REVIEW

The proposal for the Planning Commission to adopt the 2010 Annual Inventory of Large Tourist Hotels would result in no physical impact on the environment. The proposed amendment is exempt from environmental review under Section 15060 of the CEQA Guidelines.

PUBLIC COMMENT

Prior to production of this report, the Planning Department had received no requested modifications to the Inventory of Large Tourist Hotel Rooms.

RECOMMENDATION: Approval

Planning Commission Draft Motion

HEARING DATE: MARCH 25, 2010

Project Name: **Adoption of San Francisco's 2010 Annual Inventory of Large Tourist Hotel Rooms**

Case Number: 2010.0166U

Staff Contact: AnMarie Rodgers, Manager Legislative Affairs
anmarie.rodgers@sfgov.org, 415-558-6395

Recommendation: **Adoption**

ADOPTING THE BASELINE INVENTORY OF LARGE TOURIST HOTEL ROOMS AND MAKING RELATED FINDINGS.

PREAMBLE

In 2005, Board of Supervisors Ordinance 241-05 amended the Administrative Code to add Chapter 41F prohibiting large hotel conversions, with certain exceptions. The ordinance expired on September 18, 2007.

On March 18, 2008, the Board of Supervisors adopted the Large Tourist Hotel Conversion Ordinance.

On May 23, 2008 the Zoning Administrator promulgated a Bulletin and Letter of Determination setting forth the process that the Planning Department would follow to determine "complete applications" subject to first-come, first-served priority under Section 41F.3(b) of the Large Tourist Hotel Conversion Ordinance. As amended on July 14, 2008, the Letter of Determination applied the principles of the Bulletin to establish a priority listing of pending projects. The Board of Appeals affirmed the Zoning Administrator's determination on November 12, 2008.

On January 6th, 2009 the Board of Supervisors determined that selected amendments to the ordinance will facilitate the efficient and orderly implementation of the Large Tourist Hotel Conversion Ordinance and therefore passed Ordinance 14-09.

The Commission adopted a Baseline Inventory in Resolution No. 17822 on February 5, 2009.

On March 6, 2009, the Planning Department sent a memorandum to the Planning Commission confirming that the adopted Baseline Inventory remained accurate on March 1, 2009.

The 2010 Annual Inventory was determined by the San Francisco Planning Department (hereinafter "Department") to be categorically exempt from environmental review per Section 15060(c)(2). The Commission has reviewed and concurs with said determination.

The Commission has heard and considered the testimony presented to it at the public hearing and has further considered written materials and oral testimony presented on behalf of the applicant, Department staff, and other interested parties.

MOVED, that the Commission hereby adopts the City's 2010 Annual Inventory of Large Tourist Hotels requested in Executive Summary No. 2010.0166U, and contained in "EXHIBIT A" of this motion, based on the following findings:

FINDINGS

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

1. The above recitals are accurate and constitute findings of this Commission.
2. **Annual Inventory Purpose.** The Administrative Code provides for conversion of up to 550 Large Tourist Hotel Rooms into Condominiums prior to November 1, 2010. The Baseline Inventory and subsequent Annual Inventories will be used to regulate the future conversion of Large Tourist Hotel Rooms into Condominiums above and beyond the initial 550 rooms. The Planning Department will hold future lotteries if the following criteria are met: 1) the Annual update to the Baseline Inventory shows a net increase of at least 100 Large Tourist Hotel Rooms over the prior year's inventory; and 2) conducting a lottery would not result in a reduction in the number of Large Tourist Hotel Rooms below the Baseline Inventory. (Note: this means that 100 new Large Tourist Hotel Rooms will need to be created in addition to replacing the up-to-550 rooms lost by the pre-lottery Conversions.)
3. **Future Annual Inventories.** To ensure successful monitoring and regulation of the City's Large Tourist Hotel Room stock, the Administrative Code requires that the Planning Commission adopt "Annual Inventories" every year hereafter. Public hearings to consider adoption of future inventories will occur by March 15th each year.
4. **Public Comment.** The Department has received no requested amendments to the draft Baseline Inventory prior to preparation of the written materials for the Planning Commission.

5. **General Plan Compliance.** The Project is, on balance, consistent with the following Objectives and Policies of the General Plan:

The San Francisco General Plan's Commerce and Industry Element states:

"Visitor trade constitutes an important economic base for San Francisco and is responsible for employing, directly and indirectly, more residents than any other economic sector. It generates substantial revenues in many related economic areas including transportation, general merchandising, eating and drinking places, food stores, other retail trade, motor vehicles and service stations, personal services, and entertainment and recreation. By far the largest expense for visitors is hotels or motels, followed by restaurants and retail sales.

Such spending is important, for it stems from sources outside the Bay Area, and thus provides a substantial input of new dollars to the local economy. The expenditure of these new dollars in the local economy has a powerful effect in generating additional spending by local merchants and, in turn, generates higher personal incomes for resident owners and employees of visitor trade facilities. Tourist demand also has the effect of expanding the availability and selection of local goods and services."

6. **Section 101.1 Findings.** The proposed Annual Inventory is generally consistent with the eight General Plan priority policies set forth in Section 101.1 in that:

- A) The existing neighborhood-serving retail uses will be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses will be enhanced:

The proposed Annual Inventory will help protect existing neighborhood-serving retail uses and opportunities for employment in or ownership of such businesses by protecting the City's stock of Large Tourist Hotel Rooms.

- B) The existing housing and neighborhood character will be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods:

The proposed Annual Inventory will not affect the unique neighborhood character and housing.

- C) The City's supply of affordable housing will be preserved and enhanced:

The proposed Annual Inventory will have no adverse effects on the City's supply of affordable housing.

- D) The commuter traffic will not impede MUNI transit service or overburden our streets or neighborhood parking:

The proposed Annual Inventory will not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking.

- E) A diverse economic base will be maintained by protecting our industrial and service sectors from displacement due to commercial office development. And future opportunities for resident employment and ownership in these sectors will be enhanced:

The proposed Annual Inventory would help maintain the City's supply of Large Tourist Hotel Rooms and thereby help retain the tourist industry and protect related service sectors or future opportunities for resident employment or ownership in these sectors.

- F) The City will achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake.

The proposed Annual Inventory will have no effect on earthquake preparedness..

- G) That landmark and historic buildings will be preserved:

The Annual Inventory will not impact historic buildings or landmarks.

- H) Parks and open space and their access to sunlight and vistas will be protected from development:

The proposed Annual Inventory will not impact the City's parks and open space.

7. The Commission hereby adopts the City's 2010 Annual Inventory of Large Tourist Hotel Rooms, as set forth in Exhibit A to this Motion.

DECISION

That based upon the Record, the staff of the Department and other interested parties, the oral testimony presented to this Commission at the public hearings, and all other written materials submitted by all parties, the Commission hereby **APPROVES the City's 2010 Annual Inventory of Large Tourist Hotels No. 2010.0166U** attached hereto as "EXHIBIT A: 2010 ANNUAL INVENTORY" which is incorporated herein by reference as though fully set forth.

APPEAL AND EFFECTIVE DATE OF MOTION: Any aggrieved person may appeal this Baseline Inventory to the Board of Supervisors within thirty (30) days after the date of this Motion No. _____. The effective date of this Motion shall be the date of this Motion if not appealed (After the 30-day period has expired) OR the date of the decision of the Board of Supervisors if appealed to the Board of Supervisors. For further information, please contact the Board of Supervisors at (415) 554-5184, City Hall, Room 244, 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102.

I hereby certify that the Planning Commission ADOPTED the foregoing Motion on March 25, 2010.

*NOTE: Hotel number 12 in this list is the Commodore Hotel. This property is currently leased by Academy of Art and is operated as group housing for a post-secondary education institution. A Conditional Use authorization (2008.0586C) has been filed to legalize this change of use. At the February 12, 2009 Hearing, the Planning Commission noted this pending CU and decided to include the Commodore Hotel in the Baseline Inventory with caveat that if the Commission approves the CU request, the Commodore's rooms can be removed from the Baseline Inventory without causing a loss in the number of hotel rooms in the adopted Baseline Inventory. If the Commission disapproves the CU, the Commodore's rooms are to remain in the City's Baseline Inventory.
