

OCEAN & GENEVA PEOPLE WALKING AND RIDING BIKES

SURVEY DETAILS

On Wednesday September 17th, pedestrian and bike counts were collected along Ocean and Geneva. The data was collected during three time periods: 8-10am, 12-2pm and 4:30-6:30pm. The locations of where counts were gathered and the results are shown in the map and tables below.

SOME OF THE HIGHLIGHTS

- Higher pedestrian volumes on the south side of Ocean than the north side, between Howth and I-280
- Higher pedestrian volumes on the north side of Geneva between Ocean and Howth
- More people cross Ocean using the CCSF bridge than at grade
- More people walking than riding bikes
