

INFORMATIONAL UPDATE

ONLINE POLL FOR PRIORITIZING CAPITAL PROJECTS!

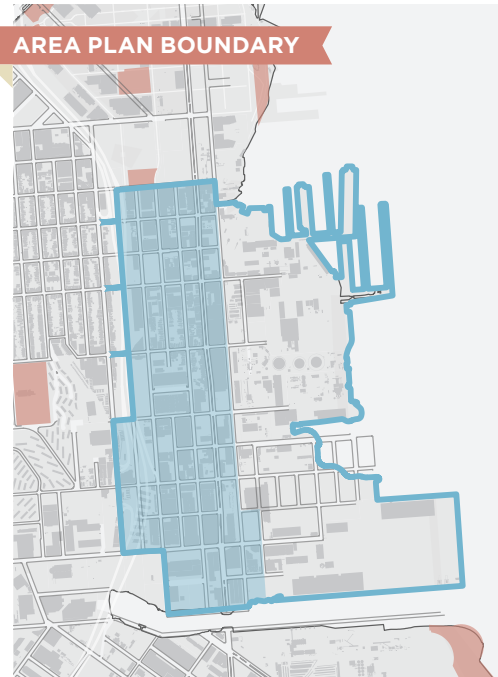

In July 2015, SF Planning set up an online polling platform to gather neighborhood feedback about capital project priorities in Dogpatch. Most projects were drawn from the Green Benefit District Vision Plan (2013); however anyone may suggest additional project ideas. Please visit the map to vote for your priorities!

Contacts

22ND STREET STREETScape

Scope area: Pennsylvania to Illinois.

Conceptual design ("Greening Master Plan") for part of the scope area was generated by Fletcher Studios, DNA and GreenTrust SF in 2011.

In June 2015, EN CAC requested that a preliminary design and cost estimates be presented to EN CAC in August.

SF Public Works has developed a working design, based on the Fletcher Plan, with an estimated cost of \$3.5M.

1. Vet working design at Aug 2015 community meetings (PDMA, DNA, Potrero Boosters) and with GBD formation committee
2. Present and request additional funding from EN CAC (Aug 2015 Public Works and Planning hold public workshop (Fall 2015).
3. Refine design and cost estimates as needed.

Kelli Rudnick, Project Mgr, SF Public Works

PEDESTRIAN LIGHTING: 22ND and 23RD STREET CALTRAIN BRIDGES

Caltrain is rebuilding both bridges, which is an opportunity to ensure adequate lighting is part of the rebuild.

Fletcher Studios and Groundworks have produced some pro-bono conceptual designs.

SF Public Works has developed cost estimates for design, electrical engineering, and construction, for both bridges, at \$182,500.

1. Identify funding for design, electrical engineering, capital and labor.
2. Identify entity to assume maintenance and liability.
3. Produce electrical plan; provide to Caltrain.
4. Caltrain implements (via 'change order' to their contractor, who will install).

Malia Cohen, Supervisor D10 and Peninsula Joint Powers Board Member.

LIGHT ART INSTALLATION: 22ND and 23RD STREET CALTRAIN BRIDGES

This work would be developed, funded, and implemented separately, and after, the pedestrian lighting above.

Fletcher Studios and Groundworks have produced some pro-bono conceptual designs.

1. Further develop conceptual designs.
2. Identify entity to assume maintenance and liability.
3. Fundraise and Implement.
