WHICH SCENARIO DO YOU LIKE BEST? WHY?

Programs

Potential programs for Tunnel Top Park include:

Areas to sit + observe

Art + Sculpture

Childrens Play Area

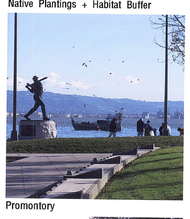

Recycling

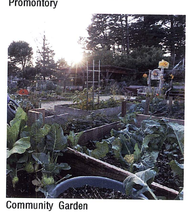

Picnicking Areas

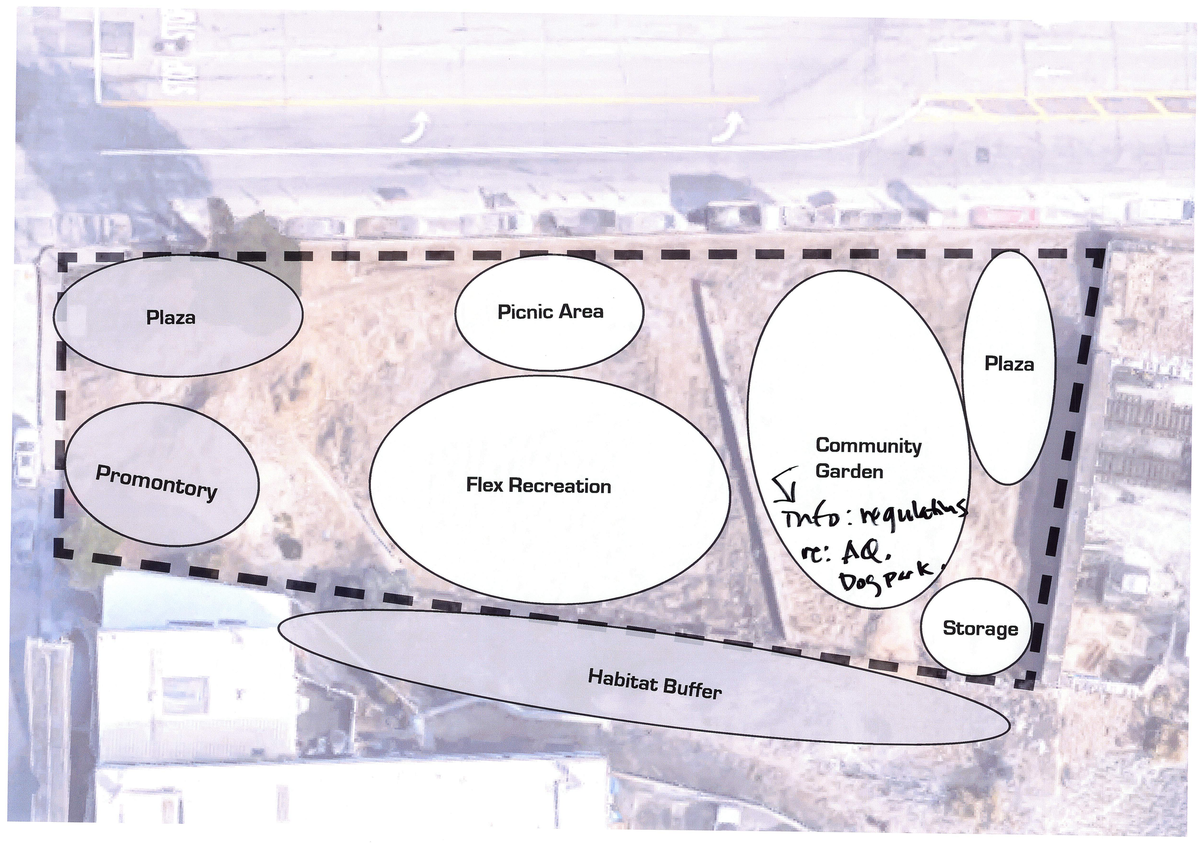

Dog Run

Native Plantings + Habitat Buffer

Promontory

Community Garden

Scenario 1

Comments

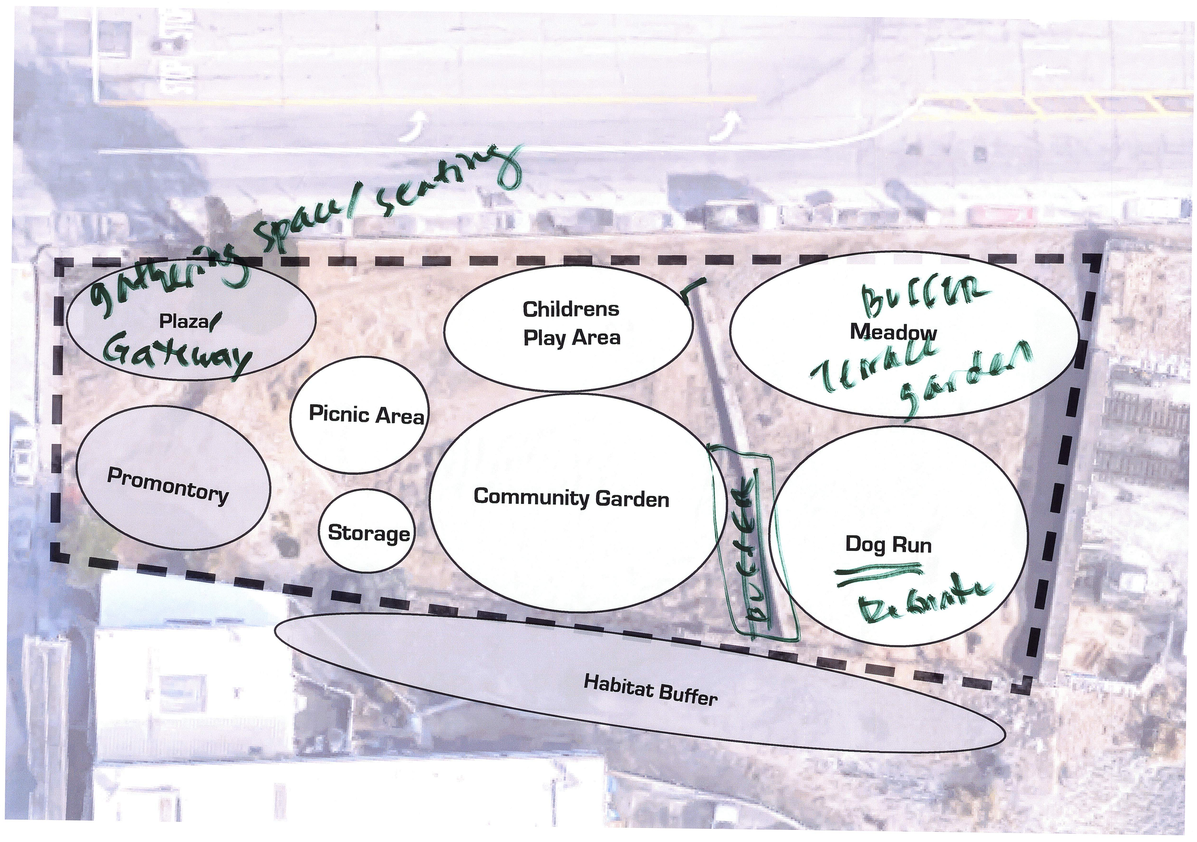

What do you think? Place your initials next to comments you agree with. [good or bad]

We have to be careful next to the street for safety EB DM
with all the particulate matter from nearby freeway, not a good place to grow food DM

use existing habitat (trees, plants, landscape.) DM, run next to tunnel flex space over tunnel. DM

Keep existing hillside plantings.

Scenario 2

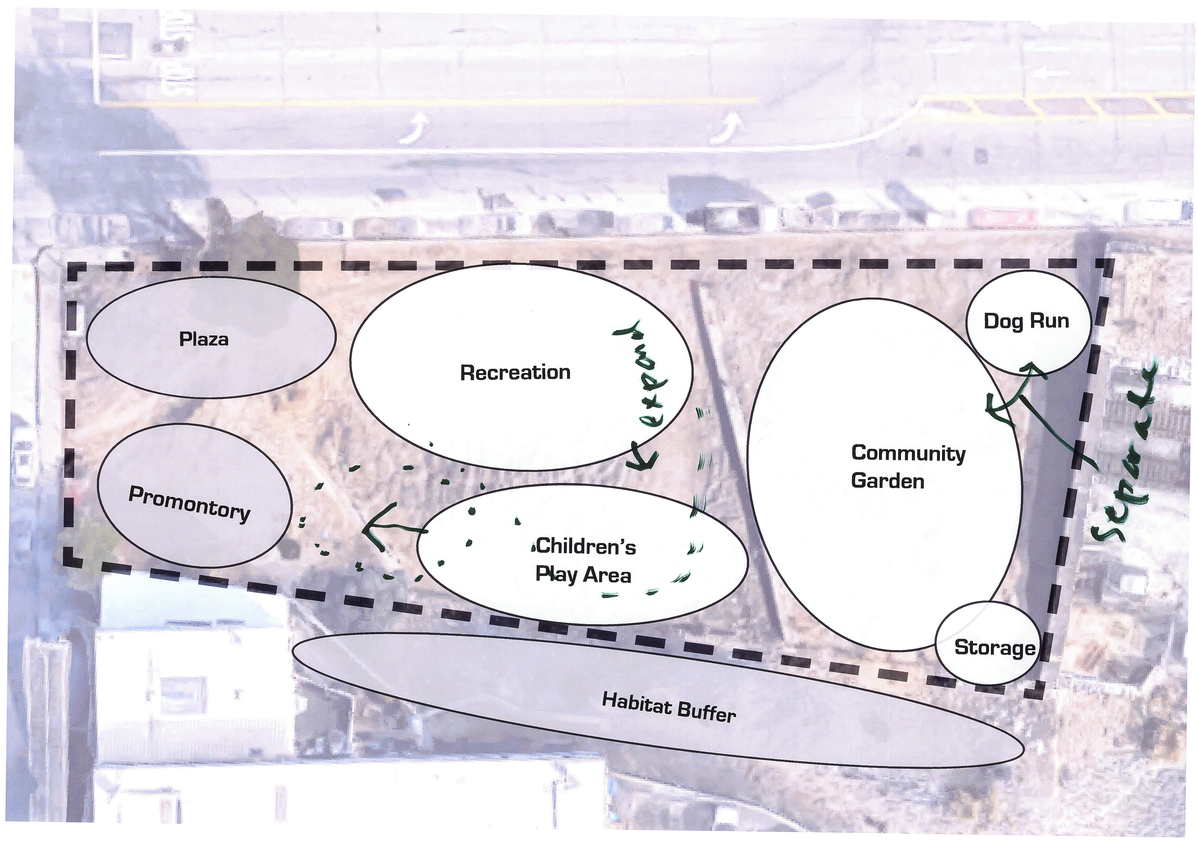

Comments

What do you think? Place your initials next to comments you agree with. [good or bad]

My favorite out of 3 EB
Children's play area can be buffered by the hill? EB
move the play area to the SW corner DM
X no community garden
Like Meadow and DogRun areas.
Swap Children's playarea and Community Garden (for safety)

Scenario 3

Comments

What do you think? Place your initials next to comments you agree with. [good or bad]

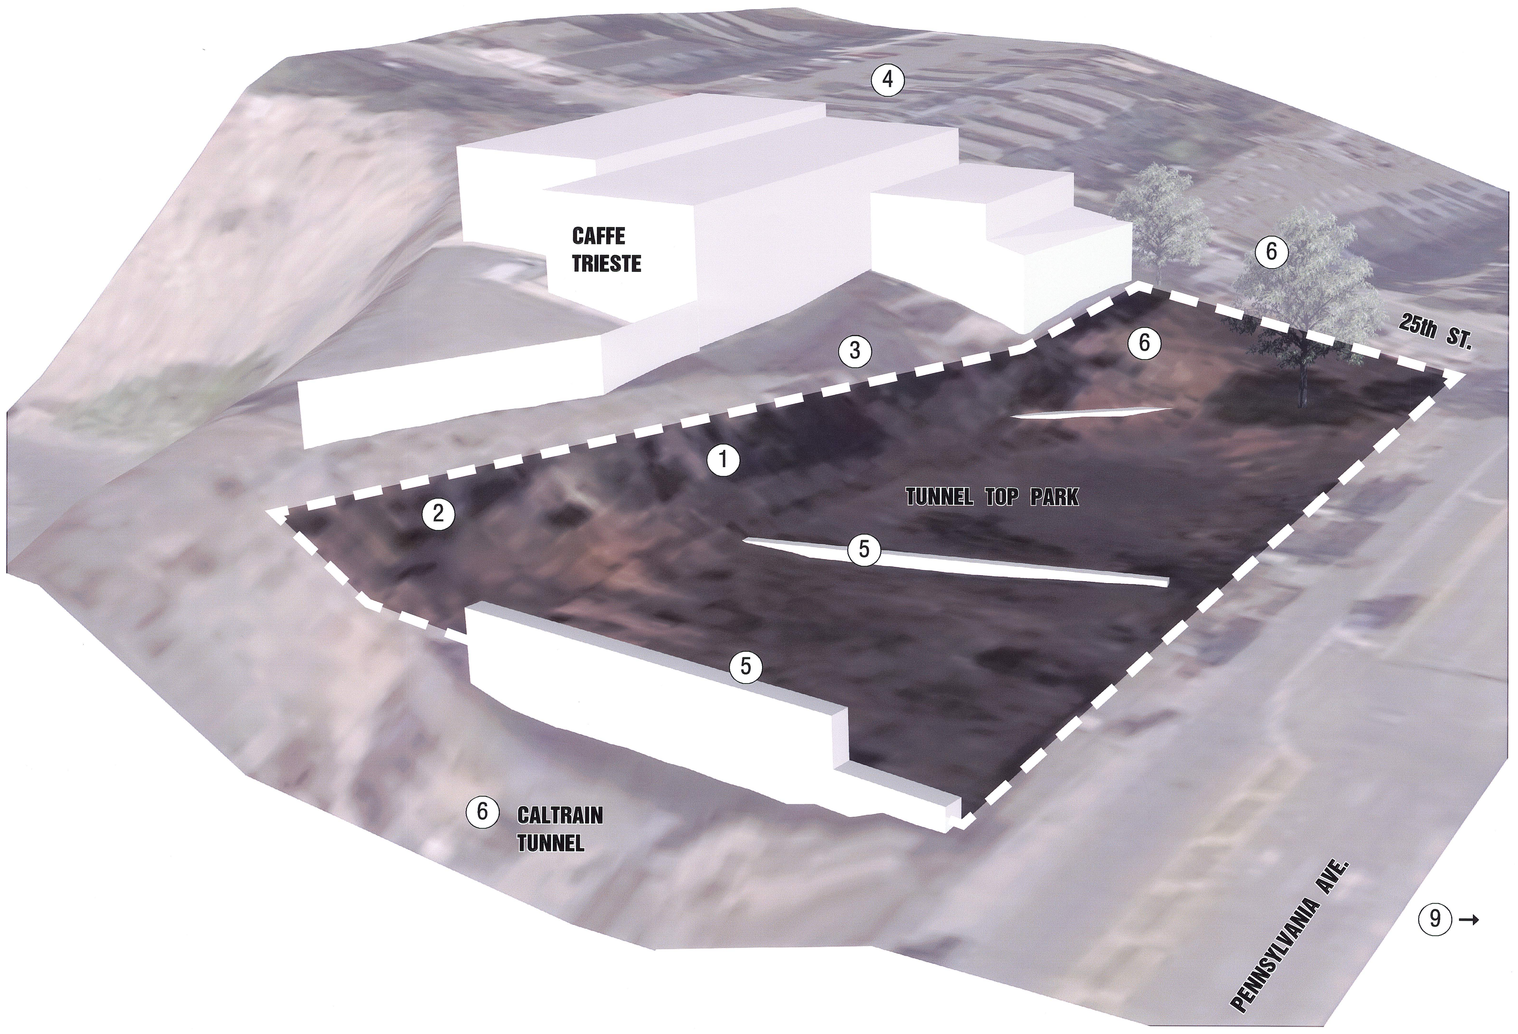

KB I like the separation to one side of the garden (= protection!). Dog run could be larger, too. +1 LB.

I like the separation between child play area and the road +1 LB

Integrate Children's playarea into hillside. Like chr

I like Children's play area away from the freeway

TUNNEL TOP PARK

Opportunities

1. Exposed serpentine hillside
2. Expansive vistas
3. Varying topography
4. Active local community adjacent to TTP
5. Areas for murals, mosaics, art, etc.
6. Existing habitat + native plantings

Additional opportunities? Write them here.
CREATES a welcoming Entrance to residential area.

Constraints

6. Excavation is not possible
7. No planting is allowed 12" below grade
8. Caltrain lease requirement
9. Close proximity to 280

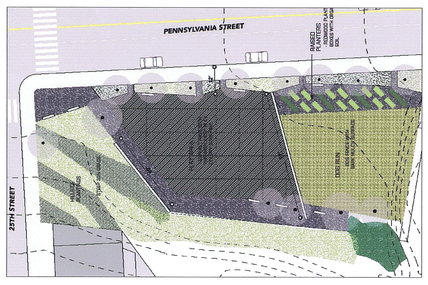

Additional constraints? Write them here.
