Topic	Notes/Questions
<i>Landscape and Vegetation ('Softscape')</i>	<ul style="list-style-type: none"> • Create a 'Natural' landscape • Appreciation of nature, ecology, biodiversity • Explore native plantings and wetland feeling • Possible stormwater planting / landscape needed to receive and manage runoff from Port property to the south • <u>No blacktop</u>
<i>Shoreline</i>	<ul style="list-style-type: none"> • Create a softer transition from shoreline to water • Consider mudflat, intertidal wetland, bird areas • Reshape / reconfigure slope of riprap to allow for habitat enhancement, taking into account sea level rise and wave action • Possibly remove riprap where feasible due to minimal wave action near western-most inlet • Interest in Kayak Landing. Possible locations include just south of DHL building on northern shoreline where water depth is sufficient for float up; or near the future 25th street access point to the Park.
<i>People and Programming</i>	<ul style="list-style-type: none"> • Create a place for seniors and children • Okay to put community gardening facilities at another site / restrictions with regional State Lands regulations • Create passive recreation uses • Limited picnicking. • Arrange facilities to discourage large gatherings • Create feeling of personal safety • <u>How are homeless encampments going to be deterred? Worried about restrooms and BBQ space attracting transient encampments</u> • <u>Minimal programming</u>
<i>Stewardship and Maintenance</i>	<ul style="list-style-type: none"> • Remove debris and unsightly materials such as tires
