PLANNING DEPARTMENT

San Francisco Planning Department
1650 Mission Street, Suite 400
San Francisco, CA 94103-9425

Please join us as we present refinements to preliminary design recommendations and preliminary urban design guidelines for development in the study area.

The preliminary design principles presented in September have been refined and new urban design guidelines have been developed to inform new development in the study area with respect to land use, views, open space, the quality of streets, and building mass, scale, and design. We will solicit comment on these proposals.

Following the workshop, the Planning Department will compile all comments and amend the study's principles and guidelines as necessary.
