OPEN HOUSE

What could a green connection look like?

OCTOBER 3RD OPEN HOUSE

Starting with the February kick-off event – the Green Connections team has led over 20 outreach events. We've collected input about the route you take to parks and your vision for a green connection. Using these ideas we've developed a draft map and a design toolkit. Drop by the open house to see these products, learn more about the project to date and provide feedback.

WHAT IS GREEN CONNECTIONS?

Green Connections is a two-year project looking at ways to improve access to parks, open space and the waterfront, by re-envisioning City streets and paths as 'green connectors'. This project builds on current efforts to create sustainable corridors that enhance mobility, green neighborhood streets, and improve pedestrian and bicycle access to community amenities and recreational opportunities.
