## NEIGHBORHOOD ANALYSIS & COORDINATION STUDY

*The Showplace/SoMa Neighborhood Analysis and Coordination Study seeks to coordinate neighborhood plans in the area.  
Join us for the first community meeting.*

Several plans and transportation projects are positioning the Showplace/SoMa neighborhoods for long-term change, such as the Central SoMa plan and ongoing rail analyses. This Study will coordinate urban design between these efforts while analyzing opportunities for:

- Additional market-rate and affordable housing
- Production, Distribution and Repair jobs; and
- Access to public space

Join city staff for the first community meeting of this effort. It will begin with a brief presentation, followed by an open house to ask questions and provide initial feedback.

*The Study will explore opportunities where several planning areas meet, shown in purple below:*
