PROJECT DESCRIPTION

The proposal is to legalize a ground floor horizontal addition (approximately 40 feet deep by 25 feet wide) at the existing commercial unit beneath an existing deck at the rear of a two-story, mixed-use building.

PER SECTION 134 OF THE PLANNING CODE the subject property with a lot depth of 155 feet requires a rear yard depth of approximately 70 feet. The proposed addition would encroach approximately 45 feet into the required rear yard.

PER SECTION 188 OF THE PLANNING CODE a noncomplying structure may be altered, provided no new discrepancy is created. The rear portion of the existing building, deck, and stairs are considered a noncomplying structure as they were constructed within the required rear yard area. The proposed project would enlarge the noncomplying structure, and is therefore contrary to Section 188.
