### PROJECT DESCRIPTION

The proposal is to enclose a portion of the existing covered entry porch at the south side of the two-story-over-garage single-family house. The proposed project will not increase the footprint of the existing building.

**Planning Code Section 133(a)(2)** requires a minimum 5- foot cumulative setback from the side property lines. The entry porch proposed to be enclosed encroaches approximately 5 feet into the required 5-foot south side yard; therefore, the project requires a variance from the side yard requirement of the Planning Code.
