**PRIORITIES**

The Haight Ashbury Public Realm Plan is a long-term vision for the neighborhood’s streets and sidewalks and serves as a guide for future implementation. Some aspects of the public realm design will be integrated into an immediate construction project through SFMTA’s Muni Forward program. Elements that exceed the budget or cannot be implemented at this time have been included here so that as funding becomes available, these elements can be added and refined. This might include items such as seasonal lighting, public art, and programming public spaces. These elements were identified and prioritized by the community over the course of this project.
