1. Planning staff shall provide data to the Planning Commission through the Quarterly Residential Pipeline Dashboard on the expected unit type and income level of any proposed projects or area plans under review, the cumulative ratio of affordable and inclusionary housing to market rate housing, including how such units would address the City's fair share of the Regional Housing Needs. The Department will work to include information about new jobs created in the city by wage. The Department will also summarize available sales price data for new housing as a part of the Quarterly Residential Pipeline Dashboard to help the Planning Commission, planning staff and the public understand trends in housing prices of new construction.

Lead Agency: Planning Department
Funding Source: Annual Work Program
Schedule: Ongoing

2. Planning shall continue to make data on housing production available to the public through the annual *Housing Inventory*, including breaking out housing production trends by income level for all Planning Districts and adopted Area Plans, and increase its notification and distribution to neighborhood organizations.

Schedule: Continue existing efforts

3. All agencies subject to the Surplus Property shall annually report surplus property to the DRE/Assessor's Office, for use by MOH in land evaluation. Ordinance (this should all be together and mirror the ordinance).

Lead Agency: Mayor's Office of Housing
Supporting Agencies: All City Agencies
Funding Source: Maintain in annual Work Program

Lead Agency: Planning Department

Funding Source: Annual Work Program

Schedule: Ongoing

14. Planning shall continue to impose requirements under the Jobs Housing Linkage Program, and shall work with new or expanding commercial and institutional uses to plan for the related housing need they generate. Lead Agency: Planning Department

Supporting Agencies: Mayors Office of Housing

Funding Source: Annual Work Program

Schedule: Ongoing

15. Planning continues to consult SFDPH on the Sustainable Communities Index for large planning processes that include large changes in infrastructure. Recent examples include the Western SoMa Community Plan and Health Services Master Plan.

The Planning Department shall require the preparation of an analysis that includes a site survey to identify potential noise-generating uses within two blocks of the project site prior to completion of the environmental review for all residential projects located in areas exceeding 75 Ldn. The analysis shall include at least one 24-hour noise measurement (with maximum noise level readings taken at least every 15 minutes). The analysis shall demonstrate with reasonable certainty that Title 24 standards, where applicable, can be met. If there are particular circumstances about the proposed project site that appear to warrant heightened concern about noise levels in the vicinity, the Department may require the completion of a detailed noise assessment

prior to the first project approval action, in order to demonstrate that acceptable interior noise levels consistent with those in the Title 24 standards can be attained.

<i>Lead Agency:</i>	Planning Department
<i>Funding Source:</i>	Not required
<i>Schedule:</i>	Ongoing, subject to change with EIR

18. To minimize effects on development in noisy areas, for new residential uses located in areas exceeding 75 Ldn, the Planning Department shall, through its building permit review process, in conjunction with noise analysis, require that open space required under the Planning Code for such uses be protected, to the maximum feasible extent, from existing ambient noise levels that could prove annoying or disruptive to users of the open space. Implementation of this measure could involve, among other things, site design that uses the building itself to shield on-site open space from the greatest noise sources, construction of noise barriers between noise sources and open space, and appropriate use of both common and private open space in multi-family dwellings, and implementation would also be undertaken consistent with other principles of urban design.

<i>Lead Agency:</i>	Planning Department
<i>Funding Source:</i>	Not required
<i>Schedule:</i>	Ongoing, subject to change with EIR

Strategies for Further Review

- MOH should explore programs that promote donation of land for affordable housing development to the City, including community land trust programs. One possibility may be the review of programs that could allow the donation of real estate as a charitable contribution, similar to the Conservation Tax Incentive promoted by the Trust for Public Land for open space purposes, where taxpayers can deduct up to 50% of adjusted gross income (AGI) for donations or bargain sales of qualified conservation easements.
- Planning should continue to explore area-specific strategies to maximize opportunities for affordable housing, such as identifying affordable housing site opportunities, or developing additional inclusionary measures that are tailored to particular neighborhoods, within community planning processes,
- Planning should explore methods for promoting increased mixed uses, including the consideration of requiring conditional use authorization for single-use development projects in mixed use zoning districts, (such as Neighborhood Commercial zoning districts).
- Planning and MOH should explore incentives for student housing. Student housing is already exempt from the City's Inclusionary Housing Ordinance, but additional modifications may assist in increasing the feasibility and supply of student housing.

CONSERVE AND IMPROVE EXISTING STOCK

OBJECTIVE 2:

RETAIN EXISTING HOUSING UNITS, AND PROMOTE SAFETY AND MAINTENANCE STANDARDS, WITHOUT JEOPARDIZING AFFORDABILITY.

19. The City should develop an effective enforcement program for short term rentals. The enforcement program should serve the existing law's goal in protecting the housing supply from conversion to commercial hotels. The Planning Department should conduct a study on the impact of short term rentals on the broader housing supply in the city, focusing especially on neighborhoods with greater levels of short term rentals. Based on this study and evaluation of the enforcement program, the City shall revisit the law as understanding of these impacts expand.

Strategies For Further Review

- DBI should consider additional programs that support voluntary home maintenance and seismic retrofitting, including expedited plan review and fee rebates.
- MOH and DBI should explore methods to, and seek funding for, programs that can increase maintenance and safety standards while not unduly increasing rents or displacing low-income households, such as a City-funded loan program aimed at meeting the needs of lower-income owners, similar to Chicago’s H.O.M.E.’s Upkeep and Repair Services Program.
- The BIC should evaluate the current uses of the Code Enforcement Rehabilitation Fund (CERF) and determine whether the program could be improved or expanded.
- As a part of the CAPPs Program, DBI should evaluate the need for revisions to the San Francisco Building Code; the need for the retrofit of designated shelters or the determination of alternate seismically safe locations; and the need for mitigation programs for critical non-ductile concrete buildings.

Lead Agency: Planning Department
Funding Source: Not required
Schedule: Ongoing

Strategies For Further Review

- The City should evaluate the role of rent-controlled units in meeting affordable housing needs, in order to develop policies that effectively continue their protection, and possibly implement requirements for their replacement. As part of this work, the City should consider pursuit of state legislative efforts that eliminate housing displacement pressures.
- The Rent Board should explore requiring proof of full-time residency for rent controlled units, to ensure they are fully occupied and not used as a second home, pied-à-terre or executive housing.
- The City should continue to monitor the effectiveness of current condominium conversion restrictions intended to moderate conversion and maintain supply of affordable rental housing in the City.
- MOH, SFRA HHS and DPH should explore how to expand the creation of permanently affordable units for single person households, particularly outside of well-served locations such as the Tenderloin and SOMA.
- MOH, SFRA and DBI should work cooperatively with affordable housing groups to identify and develop tools that would facilitate rehabilitation of at-risk rental units on an ongoing basis.

- DAAS, HSA, and/or MOH should actively work towards the development of sites for residential care facilities that are close to existing services – one promising option is to develop affordable residential care settings directly on the Laguna Honda Hospital campus. They should also work towards acquisition of housing that could be rehabilitated towards the Green House model in the Bayview district, which is particularly underserved.
- During community planning processes, Planning should explore partnerships with agencies such as RPD, OEWD, MOH and DCYF for cross-discipline efforts that may improve conditions in disadvantaged neighborhoods and increase access to housing, jobs, and public services.
