**HOW TO USE**

**SECTION INTRODUCTION**
Where included, introductory text provides an overview of the standards and guidelines to follow, but is not itself a standard or guideline.

**STANDARDS**
Numbered in text; standards are requirements. Compliance is mandatory, and modification or deviation from standards is strictly regulated by the procedures laid out in the Pier 70 SUD.

**GUIDELINES**
Numbered in orange; guidelines are typically more subjective and set forth design intent, design expectations, and encouraged or discouraged features. This document includes guidelines generally anticipated in order to fully implement the intent of the D4D. Project sponsors should consider guidelines in good faith, recognizing that achieving consistency with many (though not all) guidelines may be subjective or subject to external conditions or factors, or may be achieved through a variety of strategies.

**CONSIDERATIONS**
Bulleted in grey sidebars, considerations provide general intent and best practice recommendations. Compliance with considerations is not required.

**FIGURES AND TABLES**
Numbered consecutively according to their respective sections, figures, and tables describe standards and guidelines.
