PARK BACKGROUND
1938
PARK BACKGROUND

2007
Park Future
Guerrero Park, San Francisco’s next great public space, serves the community as a: southern gateway to The City, local open space, and focal point for culture, wellness, and play.
Project Goals

- **SAFETY**: Enhance pedestrian and bicycle safety
- **CONNECTION**: Improve connections with surrounding neighborhoods
- **INCLUSION**: Create an inviting public space for everyone
- **PLACE**: Create a strong sense of place that supports neighborhood identity
- **DURABLE**: Create long-lasting park improvements
- **FLEXIBLE**: Develop a flexible design that embraces multiple uses
SITE ASSESSMENT – SCALE COMPARISONS

GUERRERO PARK
approx.
5,930 sq ft

-2 BASKETBALL COURTS

-1 MISSION PLAYGROUND

-1 UNITY PLAZA
SITE ASSESSMENT – 28TH STREET INTERSECTION
SITE ASSESSMENT - EXISTING CONDITIONS ON 28TH LOOKING EAST
SITE ASSESSMENT - EXISTING CONDITIONS

BIKE LANE ON SAN JOSE LOOKING NORTH

INTERIOR VIEW LOOKING NORTH

CAFÉ ACROSS THE STREET
Topography

The park slopes gently to a low point at the north. During a rain event, water trickles down to the north captured by a storm drain and existing planting.
**Spring/Fall Sun**
Temperatures in the sun are comfortable for standing, sitting, and active recreation. Northeast corner has most consistent exposure year round and enables social gathering and athletic activities.

Mar/Sep 21 (8:00am – 4:00pm)
Summer Sun
Temperatures in the sun are comfortable during morning but uncomfortable during mid-afternoon with increased exposure. People will likely congregate toward tree cover for shade/breeze relief.

June 21 (8:00am – 4:00pm)
Winter Sun
Temperatures in the sun are comfortable but period of exposure is limited. People will want cover from breezes and cluster around warmest areas of plaza.

Dec 21 (8:00am - 4:00pm)
**COMFORT ANALYSIS**

**Annual Wind Condition**
Dominant western breezes have a cooling effect over the plaza. This will be a welcome relief during summer months, but has a cooling effect from October through June resulting in discomfort. Trees and berm landscape may buffer that breeze.
SITE ASSESSMENT - INFORMS ZONES
What are the current uses of the park?

What uses do you envision for this space?
### CURRENT USES

What are the current uses of the park?

[Blank spaces for notes]

### FUTURE USES

What uses do you envision for this space?

[Blank spaces for notes]
## Break-Out Session Station A

### Current Uses

**What are the current uses of the park?**

### Future Character

**What uses do you envision for this space?**

<table>
<thead>
<tr>
<th>Uses</th>
<th>Uses</th>
<th>Uses</th>
<th>Uses</th>
</tr>
</thead>
<tbody>
<tr>
<td>How can we make our communities healthier? Fitness, wellness, gardens</td>
<td>How can we return greenery to our neighborhood? Pollinators, etc.</td>
<td>How can we create a community heart? Social focus, food trucks, event space</td>
<td>How can we celebrate our culture and arts? Public arts, exhibition space, ground paintings, mosaics</td>
</tr>
</tbody>
</table>
**CURRENT USES**

What are the current uses of the park?

- How can we make our communities healthier?
  - Fitness, wellness, gardens

**FUTURE CHARACTER**

What uses do you envision for this space?

- How can we return greenery to our neighborhood?
  - Pollinators, etc.
- How can we create a community heart?
  - Social focus, food trucks, event space
- How can we celebrate our culture and arts?
  - Public arts, exhibition space, ground paintings, mosaics
BREAK-OUT SESSIONS STATION B
SITE PLAN PROGRAM IDENTIFICATION

Identify Park Programming Areas!

Place tiles on the board to identify areas
REPORT BACK

STATION A – WHAT DO WE WANT TO DO HERE?

<table>
<thead>
<tr>
<th>CURRENT USES</th>
<th>FUTURE CHARACTER</th>
</tr>
